

Product Description

Oven halogen lamp

The Todaybulb's oven halogen lamp operates within a voltage range of 220V to 250V, offering compatibility with various electrical systems. Consuming just 25W or 40W, it delivers bright and energy-efficient halogen illumination. Engineered with high temperatures of 500 degrees celsius resistant components. The heat resistant halogen bulb is ideal for use in high-heat appliances such as oven toasters and steam ovens.

Advantage

- Heat resistance

Todaybulb's ST25 oven bulb halogen is engineered for high-temperature environments, utilizing 500°C rated high-strength glass, a robust filament, a good quality ceramic components to enhance heat dissipation and a specialized thermal-resistant glue to ensure a secure and stable bond between glass envelope and base cap. This construction ensures the reliable performance in prolonged high-heat conditions.

- Energy Saver

Todaybulb's oven bulb halogen are more energy saving than traditional incandescent bulbs and feature an extended average lifespan of 1500 hours. They are with higher lumen efficiency. A 25W halogen bulb equivalent to a 40W incandescent bulb, and a 40W halogen bulb equivalent to a 60W incandescent bulb.

- Warm white Light

Todaybulb's heat resistant halogen bulb emits a consistent 2700K warm white glow, ensuring clear visibility inside ovens while maintaining a soft, nature appearance - ideal for cooking environment where color accuracy matters.

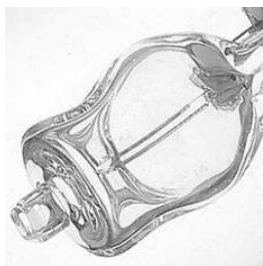

- Easy installation

The standard E14 base for this ST25 bulb and it's compact size 25*57mm allows for easy, tool-free installation in ovens.

Oven halogen lamp

High temperature resistant
ceramic fixing part

High quality halogen capsule
and tungsten filament

Nickel-plated screw sockets,
Anti-rust and anti-aging

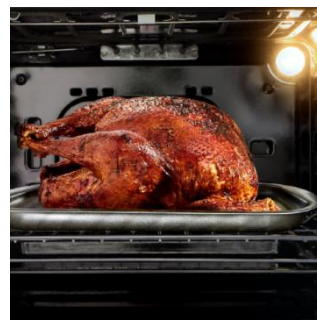

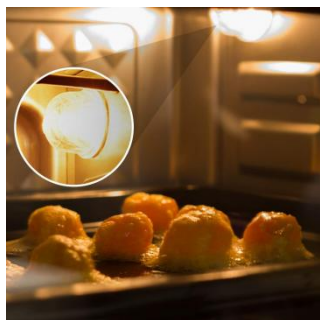

Warm White Light

Feature

- ✓ Ceramic component improve heat dissipation for bulb
- ✓ Dimmable
- ✓ 100% CRI
- ✓ Warm white
- ✓ 360D beam angle
- ✓ 500°C high temperature resistant

Application

Oven light bulb halogen can be used as appliance parts replacement bulb in oven, microwave, stove range hood lava lamp, salt lamp, and etc.

Specification

Model	Power	Voltage	Lumen	Size	Base	CRI
HAL-OVEN	25W	220-240V	180LM±10%	25*57mm	E14	100
HAL-OVEN	40W	220-240V	380LM±10%	25*57mm	E14	100
