

Product Description

Lantern LED Bulb

Lantern LED filament bulb is combination of vintage look of classic filament bulbs with energy efficient and long lasting modern LED technology. Lantern LED lamp typically has a design resembling the classic lantern bulb shape used in decorative fixtures, vintage-style lamps and lanterns to create a warm, cozy and nostalgic ambiance for decorative settings.

Advantage

- Vintage classic filament design

Todaybulb's lantern LED lamp combines the nostalgic, vintage classic filament design of traditional bulbs with advanced LED technology, ideal for a retro or rustic ambiance.

- Energy efficient

Todaybulb's lantern LED lamp consume about 80-90% less energy than incandescent bulbs with lower electricity bills.

- Long lifespan

Todaybulb's LED lantern light bulbs can last up to 25,000 hours, reduce frequency of replacement to cut down cost.

- Warm & pleasant lighting

Todaybulb's LED lantern light bulbs usually go with amber glass with 2200K-6500K LED filament to create a warm and pleasant illumination.

- Versatile use

Todaybulb's lantern flame light bulb is compatible with different fixture, like chandeliers, pendant lights and wall sconces, suitable for indoor and outdoor environment.

- Environmental friendly

Todaybulb's lantern flame light bulb is mercury-free, no hazardous materials and lower carbon footprint, environmentally friendly and sustainable development.

Lantern LED Bulb

Feature

- ✓ Classic lantern design
- ✓ Energy efficient
- ✓ Mercury-free & IR-free
